

Building Inspector

FLSA Status: *Exempt*

General Definition of Work

Performs inspections of construction sites and structures to ensure compliance with all codes as required by law and regulation and established Town construction practices and procedures. The principal duties of this class are performed at various properties and construction sites with exposure to a variety of weather conditions and terrains. This position reports directly to the Chief Building Official but considerable leeway is granted for the exercise of independent judgment and initiative.

Essential Functions

The following functions are intended only as illustrations of the various types of work performed. The omission of the specific duties does not exclude them from the position if the work is similar, related or a logical assignment to the position.

The nature of the work performed requires an employee in this class to establish and maintain effective working relationships with the Building Official, other Town management and personnel, area businesses, homeowners, contractors, architects, engineers, developers, other related professionals, and the general public.

Provide a high quality service to internal staff and Town customers with a “how can I help” attitude and appearance.

Conducts inspection of construction sites and structures for compliance with all building, plumbing, electrical, gas, energy and mechanical codes as adopted by the Town including other Town ordinances regarding setbacks and buffers. Ensures construction is in accordance with approved plans, including completing job site reports of specific violations, and documenting inspection history in computerized tracking program.

Interprets codes and regulations and explains permit and compliance conditions.

Documents and maintains complete and accurate records of all inspections and any regulatory actions taken, including preparing written reports and correspondence, and issuing notices to correct code violations.

Confers with and provides information regarding code requirements to developers, engineers, architects, property owners, the public, and other interested parties.

Addresses any complaints or problems from concerned parties, and takes appropriate measures to ensure an expedient resolution in a timely and courteous manner.

Investigates complaints regarding unauthorized or non-compliant construction, and issues “stop work orders” as necessary.

As necessary, reviews, approves, or denies single family building plans and drawings for new construction, remodeling, or renovations to ensure compliance with applicable ordinances, contacts contractors regarding needed information, documenting plan violations, determining Flood Zones and compliance with FEMA requirements, and determines required inspections based on construction plans and drawings.

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Building Inspector
